**Subject:** FW: Denka monitoring plan

In discussion with Lew today (on a different topic originally), he asked if Anne Idsal had been briefed on the transition from conventional community monitoring to SPOD event monitoring for the LaPlace chloroprene monitoring near Denka. Here is the information that he has found.

**Subject:** Denka monitoring plan

Hi – thanks for the latest information about the plans with OECA. Mike Koerber was unaware of the specifics and timing so he will check through Betsy Shaw's office to make sure the right people are briefed up in DC. OAQPS is ok with a monitoring plan that includes an exit strategy as long as the work addresses the scope that Anne Idsal intended when she directed us to continue the "base" program.
